Office Memorandum • UNITED STATES GOVERNMENT

TO : MEMO FOR THE RECORD

DATE: 19 April 1952

FROM : General Counsel

SUBJECT: Items for the Daily Log - 18 April (Friday)

1. A meeting was held at the Department of Justice, 18 April 1952, to discuss procedures applicable to defectors within the United States who are subject to deportation. The items under consideration were the need for watching and reporting the activities of such individuals and possible legislation at a future date to legalize the status of these individuals who otherwise are deportable under existing laws.

2. Mr. Whearty of the Department of Justice and I discussed certain aspects of the device on which there is a Presidential Directive concerning classification. It was agreed that additional security benefits could be secured through the inventor's application for a patent under the provisions of the Invention Secrecy Act. Mr. Patrick Coyne will be contacted to ascertain if such action would require modification of the Presidential Directive. In the early part of next week the inventor will be advised of the government's desire to have him file the patent application. Mr. Whearty and a representative of this office will participate in that discussion.
